ECONYL®
ENDLESS POSSIBILITIES

SDN
solution dyed nylon
bleach cleanable yarn

Welcome to the new world of Tapibel. A world where sea creatures are king and sea waste gets a new life thanks to ECONYL®. Discover our super soft and luxurious carpet. Discover New Worlds.

LUXURIOUS UNDERFOOT

Luxurious silky velvet carpet, designed for high-end residential and contract flooring market.

PLANET FRIENDLY

Made with 100% ECONYL®, a sustainable and ecological solution for synthetic carpet yarn.

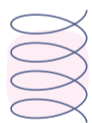

TIMELESS CHIC COLOURS

11 elegant and timeless colours from stock, available in both 4 & 5m width.

SOLUTION DYED NYLON

Exclusive fibre technology with superior colour fastness and stain resistance. This carpet is both bleach cleanable and moth-proof, for ultimate peace of mind!

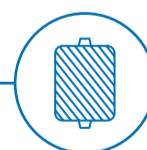

PRECISION MADE

Engineered with care, to offer exceptional performance from a soft but super resilient 2-ply polyamide yarn. Rated "class 33" for heavy commercial use.

1.

Rescuing, sorting and cleaning of waste like fishing nets, fabric scraps, carpet flooring and industrial plastic from landfills and oceans all over the world.

2.

Regeneration and purification process: the nylon waste is recycled right back to its original purity.

3.

Regeneration into carpet yarn and textile yarn for the fashion and interior industries.

THE ECONYL® REGENERATION SYSTEM

ECONYL® regenerated nylon can be recycled infinitely, without ever losing its quality.
